

1

RV step should be clean and dry prior to installation. If necessary, clean step with soap and water and allow to dry thoroughly.

2

Position STEP RUG so that it is centered on step area. *Do not* remove the protective backing from VELCRO® strips before the rug has been properly positioned.

3

Use one hand to hold STEP RUG in place. Lift one side of the STEP RUG with free hand and remove the protective backing from VELCRO® strip. Carefully lay rug down and apply pressure over area of VELCRO® strip. Repeat same process on opposite side.
